12          (2) ALTERNATIVE RATIO.—The Board may es-

14          ratio (of payments for home and community-based  
15          long term care services to payments for nursing fa-  
16          cility services) as the Board determines to be more  
17          consistent with the goal of providing cost-effective  
18          long-term care in the most appropriate and least re-  
19          strictive setting.

20 **SEC. 204. EXCLUSIONS AND LIMITATIONS.**

21          (a) IN GENERAL.—Subject to section 201(e), benefits

18 cy involved with child welfare, special education,  
19 juvenile justice, or criminal justice.

20 (2) REQUIREMENTS FOR SYSTEM OF CARE.—In  
21 this subsection, an “organized system of care” is a  
22 community-based service delivery network, which  
23 may consist of public and private providers, that  
24 meets the following requirements:

1           (A) The system has established linkages  
2 with existing mental health services and sub-

6 with appropriate public agencies in the area to  
7 coordinate the delivery of such services to indi-  
8 viduals in the area).

9           (B) The system provides for the participa-  
10 tion and coordination of multiple agencies and  
11 providers that serve the needs of children in the  
12 area, including agencies and providers involved

21           (D) The system provides for the develop-

2           in the area.

3           (E) The system ensures the delivery and

9           (F) The system provides for the manage-

15          applying subsection (a), the Board shall make national  
16          coverage determinations with respect to those services that  
17          are experimental in nature. Such determinations shall be  
18          made consistent with a process that provides for input  
19          from representatives of health care professionals and pa-

21          (d) APPLICATION OF PRACTICE GUIDELINES.—In  
22          the case of services for which the American Health Secu-

24          recognized a national practice guideline, the services are  
25          considered to meet the standards specified in section

1 201(a) if they have been provided in accordance with such  
2 guideline or in accordance with such guidelines as are pro-  
3 vided by the State health security program consistent with  
4 title V. For purposes of this subsection, a service shall  
5 be considered to have been provided in accordance with  
6 a practice guideline if the health care provider providing  
7 the service exercised appropriate professional discretion to  
8 deviate from the guideline in a manner authorized or an-

12           (B) TERMINATION PROCESS.—Providers

20 review and evaluate each practice guideline devel-  
21 oped under part B of title IX of the Public Health  
22 Service Act. The Council shall determine whether

14 (3) CRITERIA FOR ENTITIES CONDUCTING  
15 QUALITY REVIEWS.—The Council shall develop min-  
16 imum criteria for competence for entities that can  
17 qualify to conduct ongoing and continuous external

19 under section 503. Such criteria shall require such  
20 an entity to be administratively independent of the  
21 individual or board that administers the State health  
22 security program and shall ensure that such entities  
23 do not provide financial incentives to reviewers to  
24 favor one pattern of practice over another. The  
25 Council shall ensure coordination and reporting by

1       such entities to assure national consistency in qual-  
2       ity standards.

3           (4) REPORTING.—The Council shall report to

2 shall reflect the racial, ethnic, and gender composi-  
3 tion of the population of the United States.

17 develop guidelines for certain medical procedures des-  
18 ignated by the Board to be performed only at tertiary care  
19 centers which can meet standards for frequency of proce-  
20 dure performance and intensity of support mechanisms  
21 that are consistent with the high probability of desired pa-  
22 tient outcome. Reimbursement under this Act for such a  
23 designated procedure may only be provided if the proce-  
24 dure was performed at a center that meets such stand-  
25 ards.

1 (c) REMEDIAL ACTIONS.—The Council shall develop  
2 standards for education and sanctions with respect to  
3 outliers so as to assure the quality of health care services  
4 provided under this Act. The Council shall develop criteria  
5 for referral of providers to the State licensing board if edu-  
6 cation proves ineffective in correcting provider practice be-  
7 havior.

8 (d) DISSEMINATION.—The Council shall disseminate  
9 to the State—

10 (1) the methodologies adopted under subsection

11 (a);

12 (2) the guidelines developed under subsection

13 (b); and

14 (3) the standards developed under subsection

17 (e) OUTLIER DEFINED.—In this title, the term  
18 “outlier” means a health care provider whose pattern of  
19 practice, relative to applicable practice guidelines, suggests  
20 deficiencies in the quality of health care services being pro-  
21 vided.

22 **SEC. 503. STATE QUALITY REVIEW PROGRAMS.**

23 (a) REQUIREMENT.—In order to meet the require-  
24 ment of section 404(b)(1)(H), each State health security  
25 program shall establish 1 or more qualified entities to con-

1 duct quality reviews of persons providing covered services  
2 under the program, in accordance with standards estab-  
3 lished under subsection (b)(1) (except as provided in sub-  
4 section (b)(2)) and subsection (d).

5 (b) FEDERAL STANDARDS.—

6 (1) IN GENERAL.—The Council shall establish  
7 standards with respect to—

8 (A) the adoption of practice guidelines  
9 (whether developed by the Federal Government  
10 or other entities);

11 (B) the identification of outliers (con-  
12 sistent with methodologies adopted under sec-  
13 tion 502(a));

14 (C) the development of remedial programs  
15 and monitoring for outliers; and

16 (D) the application of sanctions (consistent  
17 with the standards developed under section  
18 502(c)).

19 (2) STATE DISCRETION.—A State may apply  
20 under subsection (a) standards other than those es-  
21 tablished under paragraph (1) so long as the State  
22 demonstrates to the satisfaction of the Council on an  
23 annual basis that the standards applied have been as  
24 efficacious in promoting and achieving improved  
25 quality of care as the application of the standards

1 established under paragraph (1). Positive improve-  
2 ments in quality shall be documented by reductions  
3 in the variations of clinical care process and im-  
4 provement in patient outcomes.

5 (c) QUALIFICATIONS.—An entity is not qualified to  
6 conduct quality reviews under subsection (a) unless the  
7 entity satisfies the criteria for competence for such entities  
8 developed by the Council under section 501(b)(3).

9 (d) INTERNAL QUALITY REVIEW.—Nothing in this  
10 section shall preclude an institutional provider from estab-  
11 lishing its own internal quality review and enhancement  
12 programs.

13 **SEC. 504. ELIMINATION OF UTILIZATION REVIEW PRO-**  
14 **GRAMS; TRANSITION.**

15 (a) INTENT.—It is the intention of this title to re-  
16 place by January 1, 2013, random utilization controls with  
17 a systematic review of patterns of practice that com-  
18 promise the quality of care.

19 (b) SUPERSEDING CASE REVIEWS.—

20 (1) IN GENERAL.—Subject to the succeeding  
21 provisions of this subsection, the program of quality  
22 review provided under the previous sections of this  
23 title supersede all existing Federal requirements for  
24 utilization review programs, including requirements  
25 for random case-by-case reviews and programs re-

1       quiring pre-certification of medical procedures on a  
2       case-by-case basis.

3           (2) TRANSITION.—Before January 1, 2013, the  
4       Board and the States may employ existing utiliza-  
5       tion review standards and mechanisms as may be  
6       necessary to effect the transition to pattern of prac-  
7       tice-based reviews.

8           (3) CONSTRUCTION.—Nothing in this sub-  
9       section shall be construed—

10           (A) as precluding the case-by-case review  
11       of the provision of care—

12           (i) in individual incidents where the  
13       quality of care has significantly deviated  
14       from acceptable standards of practice; and

15           (ii) with respect to a provider who has  
16       been determined to be an outlier; or

17           (B) as precluding the case management of  
18       catastrophic, mental health, or substance abuse  
19       cases or long-term care where such manage-  
20       ment is necessary to achieve appropriate, cost-  
21       effective, and beneficial comprehensive medical  
22       care, as provided for in section 204.

1 **TITLE VI—HEALTH SECURITY**  
2 **BUDGET; PAYMENTS; COST**  
3 **CONTAINMENT MEASURES**  
4 **Subtitle A—Budgeting and**  
5 **Payments to States**

6 **SEC. 601. NATIONAL HEALTH SECURITY BUDGET.**

7 (a) NATIONAL HEALTH SECURITY BUDGET.—

8 (1) IN GENERAL.—By not later than September  
9 1 before the beginning of each year (beginning with  
10 2010), the Board shall establish a national health  
11 security budget, which—

12 (A) specifies the total expenditures (includ-  
13 ing expenditures for administrative costs) to be  
14 made by the Federal Government and the  
15 States for covered health care services under  
16 this Act; and

17 (B) allocates those expenditures among the  
18 States consistent with section 604.

6 (D) A component (in this title referred to  
7 as the “operating component”) for operating  
8 and other expenditures not described in sub-  
9 paragraphs (A) through (C), consisting of  
10 amounts not included in the other components.  
11 A State may provide for the allocation of this  
12 component between capital expenditures and  
13 other expenditures.

14 (3) ALLOCATION AMONG COMPONENTS.—Tak-  
15 ing into account the State health security budgets  
16 established and submitted under section 603, the  
17 Board shall allocate the national health security  
18 budget among the components in a manner that—

19 (A) assures a fair allocation for quality as-  
20 sessment activities (consistent with the national  
21 health security spending growth limit); and

22 (B) assures that the health professional  
23 education expenditure component is sufficient  
24 to provide for the amount of health professional  
25 education expenditures sufficient to meet the

1           need for covered health care services (consistent  
2           with the national health security spending  
3           growth limit under subsection (b)(2)).

4           (b) BASIS FOR TOTAL EXPENDITURES.—

5           (1) IN GENERAL.—The total expenditures speci-  
6           fied in such budget shall be the sum of the capita-  
7           tion amounts computed under section 602(a) and  
8           the amount of Federal administrative expenditures  
9           needed to carry out this Act.

10           (2) NATIONAL HEALTH SECURITY SPENDING  
11           GROWTH LIMIT.—For purposes of this subtitle, the  
12           national health security spending growth limit de-  
13           scribed in this paragraph for a year is (A) zero, or,  
14           if greater, (B) the average annual percentage in-  
15           crease in the gross domestic product (in current dol-  
16           lars) during the 3-year period beginning with the  
17           first quarter of the fourth previous year to the first  
18           quarter of the previous year minus the percentage  
19           increase (if any) in the number of eligible individuals  
20           residing in any State the United States from the  
21           first quarter of the second previous year to the first  
22           quarter of the previous year.

23           (c) DEFINITIONS.—In this title:

24           (1) CAPITAL EXPENDITURES.—The term “cap-  
25           ital expenditures” means expenses for the purchase,

1 lease, construction, or renovation of capital facilities  
2 and for equipment and includes return on equity  
3 capital.

4 (2) HEALTH PROFESSIONAL EDUCATION EX-  
5 PENDITURES.—The term “health professional edu-  
6 cation expenditures” means expenditures in hospitals  
7 and other health care facilities to cover costs associ-  
8 ated with teaching and related research activities.

9 **SEC. 602. COMPUTATION OF INDIVIDUAL AND STATE CAPI-**  
10 **TATION AMOUNTS.**

11 (a) CAPITATION AMOUNTS.—

12 (1) INDIVIDUAL CAPITATION AMOUNTS.—In es-  
13 tablishing the national health security budget under  
14 section 601(a) and in computing the national aver-  
15 age per capita cost under subsection (b) for each  
16 year, the Board shall establish a method for com-  
17 puting the capitation amount for each eligible indi-  
18 vidual residing in each State. The capitation amount  
19 for an eligible individual in a State classified within  
20 a risk group (established under subsection (d)(2)) is  
21 the product of—

22 (A) a national average per capita cost for  
23 all covered health care services (computed  
24 under subsection (b));

1 (B) the State adjustment factor (estab-  
2 lished under subsection (c)) for the State; and

3 (C) the risk adjustment factor (established  
4 under subsection (d)) for the risk group.

5 (2) STATE CAPITATION AMOUNT.—

6 (A) IN GENERAL.—For purposes of this  
7 title, the term “State capitation amount”  
8 means, for a State for a year, the sum of the  
9 capitation amounts computed under paragraph  
10 (1) for all the residents of the State in the year,  
11 as estimated by the Board before the beginning  
12 of the year involved.

13 (B) USE OF STATISTICAL MODEL.—The  
14 Board may provide for the computation of  
15 State capitation amounts based on statistical  
16 models that fairly reflect the elements that com-  
17 prise the State capitation amount described in  
18 subparagraph (A).

19 (C) POPULATION INFORMATION.—The Bu-  
20 reau of the Census shall assist the Board in de-  
21 termining the number, place of residence, and  
22 risk group classification of eligible individuals.

23 (b) COMPUTATION OF NATIONAL AVERAGE PER CAP-  
24 ITA COST.—

1           (1) FOR 2010.—For 2010, the national average  
2           per capita cost under this paragraph is equal to—

3                   (A) the average per capita health care ex-  
4                   penditures in the United States in 2008 (as es-  
5                   timated by the Board);

6                   (B) increased to 2009 by the Board’s esti-  
7                   mate of the actual amount of such per capita  
8                   expenditures during 2009; and

9                   (C) updated to 2010 by the national health  
10                  security spending growth limit specified in sec-  
11                  tion 601(b)(2) for 2010.

12           (2) FOR SUCCEEDING YEARS.—For each suc-  
13           ceeding year, the national average per capita cost  
14           under this subsection is equal to the national aver-  
15           age per capita cost computed under this subsection  
16           for the previous year increased by the national  
17           health security spending growth limit (specified in  
18           section 601(b)(2)) for the year involved.

19           (c) STATE ADJUSTMENT FACTORS.—

20                   (1) IN GENERAL.—Subject to the succeeding  
21                   paragraphs of this subsection, the Board shall de-  
22                   velop for each State a factor to adjust the national  
23                   average per capita costs to reflect differences be-  
24                   tween the State and the United States in—

1 (A) average labor and nonlabor costs that  
2 are necessary to provide covered health services;

3 (B) any social, environmental, or geo-  
4 graphic condition affecting health status or the  
5 need for health care services, to the extent such  
6 a condition is not taken into account in the es-  
7 tablishment of risk groups under subsection (d);

8 (C) the geographic distribution of the  
9 State's population, particularly the proportion  
10 of the population residing in medically under-  
11 served areas, to the extent such a condition is  
12 not taken into account in the establishment of  
13 risk groups under subsection (d); and

14 (D) any other factor relating to operating  
15 costs required to assure equitable distribution  
16 of funds among the States.

17 (2) MODIFICATION OF HEALTH PROFESSIONAL  
18 EDUCATION COMPONENT.—With respect to the por-  
19 tion of the national health security budget allocated  
20 to expenditures for health professional education, the  
21 Board shall modify the State adjustment factors so  
22 as to take into account—

23 (A) differences among States in health  
24 professional education programs in operation as  
25 of the date of the enactment of this Act; and

1           (B) differences among States in their rel-  
2           ative need for expenditures for health profes-  
3           sional education, taking into account the health  
4           professional education expenditures proposed in  
5           State health security budgets under section  
6           603(a).

7           (3) BUDGET NEUTRALITY.—The State adjust-  
8           ment factors, as modified under paragraph (2), shall  
9           be applied under this subsection in a manner that  
10          results in neither an increase nor a decrease in the  
11          total amount of the Federal contributions to all  
12          State health security programs under subsection (b)  
13          as a result of the application of such factors.

14          (4) PHASE-IN.—In applying State adjustment  
15          factors under this subsection during the 5-year pe-  
16          riod beginning with 2010, the Board shall phase-in,  
17          over such period, the use of factors described in  
18          paragraph (1) in a manner so that the adjustment  
19          factor for a State is based on a blend of such factors  
20          and a factor that reflects the relative actual average  
21          per capita costs of health services of the different  
22          States as of the time of enactment of this Act.

23          (5) PERIODIC ADJUSTMENT.—In establishing  
24          the national health security budget before the begin-  
25          ning of each year, the Board shall provide for appro-

1        appropriate adjustments in the State adjustment factors  
2        under this subsection.

3        (d) ADJUSTMENTS FOR RISK GROUP CLASSIFICA-  
4        TION.—

5            (1) IN GENERAL.—The Board shall develop an  
6        adjustment factor to the national average per capita  
7        costs computed under subsection (b) for individuals  
8        classified in each risk group (as designated under  
9        paragraph (2)) to reflect the difference between the  
10       average national average per capita costs and the  
11       national average per capita cost for individuals clas-  
12       sified in the risk group.

13           (2) RISK GROUPS.—The Board shall designate  
14        a series of risk groups, determined by age, health in-  
15        dicators, and other factors that represent distinct  
16        patterns of health care services utilization and costs.

17           (3) PERIODIC ADJUSTMENT.—In establishing  
18        the national health security budget before the begin-  
19        ning of each year, the Board shall provide for appro-  
20        priate adjustments in the risk adjustment factors  
21        under this subsection.

22        **SEC. 603. STATE HEALTH SECURITY BUDGETS.**

23        (a) ESTABLISHMENT AND SUBMISSION OF BUDG-  
24        ETS.—

1           (1) IN GENERAL.—Each State health security  
2 program shall establish and submit to the Board for  
3 each year a proposed and a final State health secu-  
4 rity budget, which specifies the following:

5           (A) The total expenditures (including ex-  
6 penditures for administrative costs) to be made  
7 under the program in the State for covered  
8 health care services under this Act, consistent  
9 with subsection (b), broken down as follows:

10           (i) By the 4 components (described in  
11 section 601(a)(2)), consistent with sub-  
12 section (b).

13           (ii) Within the operating component—

14           (I) expenditures for operating  
15 costs of hospitals and other facility-  
16 based services in the State;

17           (II) expenditures for payment to  
18 comprehensive health service organiza-  
19 tions;

20           (III) expenditures for payment of  
21 services provided by health care prac-  
22 titioners; and

23           (IV) expenditures for other cov-  
24 ered items and services.

1           Amounts included in the operating compo-  
2           nent include amounts that may be used by  
3           providers for capital expenditures.

4           (B) The total revenues required to meet  
5           the State health security expenditures.

6           (2) PROPOSED BUDGET DEADLINE.—The pro-  
7           posed budget for a year shall be submitted under  
8           paragraph (1) not later than June 1 before the year.

9           (3) FINAL BUDGET.—The final budget for a  
10          year shall—

11           (A) be established and submitted under  
12           paragraph (1) not later than October 1 before  
13           the year, and

14           (B) take into account the amounts estab-  
15           lished under the national health security budget  
16           under section 601 for the year.

17           (4) ADJUSTMENT IN ALLOCATIONS PER-  
18          MITTED.—

19           (A) IN GENERAL.—Subject to subpara-  
20           graphs (B) and (C), in the case of a final budg-  
21           et, a State may change the allocation of  
22           amounts among components.

23           (B) NOTICE.—No such change may be  
24           made unless the State has provided prior notice  
25           of the change to the Board.

1           (C) DENIAL.—Such a change may not be  
2           made if the Board, within such time period as  
3           the Board specifies, disapproves such change.

4           (b) EXPENDITURE LIMITS.—

5           (1) IN GENERAL.—The total expenditures speci-  
6           fied in each State health security budget under sub-  
7           section (a)(1) shall take into account Federal con-  
8           tributions made under section 604.

9           (2) LIMIT ON CLAIMS PROCESSING AND BILL-  
10          ING EXPENDITURES.—Each State health security  
11          budget shall provide that State administrative ex-  
12          penditures, including expenditures for claims proc-  
13          essing and billing, shall not exceed 3 percent of the  
14          total expenditures under the State health security  
15          program, unless the Board determines, on a case-by-  
16          case basis, that additional administrative expendi-  
17          tures would improve health care quality and cost ef-  
18          fectiveness.

19          (3) WORKER ASSISTANCE.—A State health se-  
20          curity program may provide that, for budgets for  
21          years before 2013, up to 1 percent of the budget  
22          may be used for purposes of programs providing as-  
23          sistance to workers who are currently performing  
24          functions in the administration of the health insur-  
25          ance system and who may experience economic dis-

1 location as a result of the implementation of the pro-  
2 gram.

3 (c) APPROVAL PROCESS FOR CAPITAL EXPENDI-  
4 TURES PERMITTED.—Nothing in this title shall be con-  
5 strued as preventing a State health security program from  
6 providing for a process for the approval of capital expendi-  
7 tures based on information derived from regional planning  
8 agencies.

9 **SEC. 604. FEDERAL PAYMENTS TO STATES.**

10 (a) IN GENERAL.—Each State with an approved  
11 State health security program is entitled to receive, from  
12 amounts in the American Health Security Trust Fund, on  
13 a monthly basis each year, of an amount equal to one-  
14 twelfth of the product of—

15 (1) the State capitation amount (computed  
16 under section 602(a)(2)) for the State for the year;  
17 and

18 (2) the Federal contribution percentage (estab-  
19 lished under subsection (b)).

20 (b) FEDERAL CONTRIBUTION PERCENTAGE.—The  
21 Board shall establish a formula for the establishment of  
22 a Federal contribution percentage for each State. Such  
23 formula shall take into consideration a State's per capita  
24 income and revenue capacity and such other relevant eco-  
25 nomic indicators as the Board determines to be appro-

1 priate. In addition, during the 5-year period beginning  
2 with 2010, the Board may provide for a transition adjust-  
3 ment to the formula in order to take into account current  
4 expenditures by the State (and local governments thereof)  
5 for health services covered under the State health security  
6 program. The weighted-average Federal contribution per-  
7 centage for all States shall equal 86 percent and in no  
8 event shall such percentage be less than 81 percent nor  
9 more than 91 percent.

10 (c) USE OF PAYMENTS.—All payments made under  
11 this section may only be used to carry out the State health  
12 security program.

13 (d) EFFECT OF SPENDING EXCESS OR SURPLUS.—

14 (1) SPENDING EXCESS.—If a State exceeds its  
15 budget in a given year, the State shall continue to  
16 fund covered health services from its own revenues.

17 (2) SURPLUS.—If a State provides all covered  
18 health services for less than the budgeted amount  
19 for a year, it may retain its Federal payment for  
20 that year for uses consistent with this Act.

21 **SEC. 605. ACCOUNT FOR HEALTH PROFESSIONAL EDU-**  
22 **CATION EXPENDITURES.**

23 (a) SEPARATE ACCOUNT.—Each State health secu-  
24 rity program shall—

1           (1) include a separate account for health pro-  
2           fessional education expenditures; and

3           (2) specify the general manner, consistent with  
4           subsection (b), in which such expenditures are to be  
5           distributed among different types of institutions and  
6           the different areas of the State.

7           (b) DISTRIBUTION RULES.—The distribution of  
8           funds to hospitals and other health care facilities from the  
9           account must conform to the following principles:

10           (1) The disbursement of funds must be con-  
11           sistent with achievement of the national and pro-  
12           gram goals (specified in section 701(b)) within the  
13           State health security program and the distribution  
14           of funds from the account must be conditioned upon  
15           the receipt of such reports as the Board may require  
16           in order to monitor compliance with such goals.

17           (2) The distribution of funds from the account  
18           must take into account the potentially higher costs  
19           of placing health professional students in clinical  
20           education programs in health professional shortage  
21           areas.

3     **SEC. 611. PAYMENTS TO HOSPITALS AND OTHER FACILITY-**  
4                     **BASED SERVICES FOR OPERATING EXPENSES**  
5                     **ON THE BASIS OF APPROVED GLOBAL BUDG-**  
6                     **ETS.**

7             (a) DIRECT PAYMENT UNDER GLOBAL BUDGET.—

8     Payment for operating expenses for institutional and facil-  
9     ity-based care, including hospital services and nursing fa-  
10    cility services, under State health security programs shall  
11    be made directly to each institution or facility by each  
12    State health security program under an annual prospec-  
13    tive global budget approved under the program. Such a  
14    budget shall include payment for outpatient care and non-  
15    facility-based care that is furnished by or through the fa-  
16    cility. In the case of a hospital that is wholly owned (or  
17    controlled) by a comprehensive health service organization  
18    that is paid under section 614 on the basis of a global  
19    budget, the global budget of the organization shall include  
20    the budget for the hospital.

21             (b) ANNUAL NEGOTIATIONS; BUDGET APPROVAL.—

22                 (1) IN GENERAL.—The prospective global budg-  
23             et for an institution or facility shall—

24                     (A) be developed through annual negotia-  
25             tions between—

1 (i) a panel of individuals who are ap-  
2 pointed by the Governor of the State and  
3 who represent consumers, labor, business,  
4 and the State government; and

5 (ii) the institution or facility; and

6 (B) be based on a nationally uniform sys-  
7 tem of cost accounting established under stand-  
8 ards of the Board.

9 (2) CONSIDERATIONS.—In developing a budget  
10 through negotiations, there shall be taken into ac-  
11 count at least the following:

12 (A) With respect to inpatient hospital serv-  
13 ices, the number, and classification by diag-  
14 nosis-related group, of discharges.

15 (B) An institution's or facility's past ex-  
16 penditures.

17 (C) The extent to which debt service for  
18 capital expenditures has been included in the  
19 proposed operating budget.

20 (D) The extent to which capital expendi-  
21 tures are financed directly or indirectly through  
22 reductions in direct care to patients, including  
23 (but not limited to) reductions in registered  
24 nursing staffing patterns or changes in emer-

1           agency room or primary care services or avail-  
2           ability.

3           (E) Change in the consumer price index  
4           and other price indices.

5           (F) The cost of reasonable compensation  
6           to health care practitioners.

7           (G) The compensation level of the institu-  
8           tion's or facility's work force.

9           (H) The extent to which the institution or  
10          facility is providing health care services to meet  
11          the needs of residents in the area served by the  
12          institution or facility, including the institution's  
13          or facility's occupancy level.

14          (I) The institution's or facility's previous  
15          financial and clinical performance, based on uti-  
16          lization and outcomes data provided under this  
17          Act.

18          (J) The type of institution or facility, in-  
19          cluding whether the institution or facility is  
20          part of a clinical education program or serves  
21          a health professional education, research or  
22          other training purpose.

23          (K) Technological advances or changes.

1           (L) Costs of the institution or facility asso-  
2           ciated with meeting Federal and State regula-  
3           tions.

4           (M) The costs associated with necessary  
5           public outreach activities.

6           (N) In the case of a for-profit facility, a  
7           reasonable rate of return on equity capital,  
8           independent of those operating expenses nec-  
9           essary to fulfill the objectives of this Act.

10          (O) Incentives to facilities that maintain  
11          costs below previous reasonable budgeted levels  
12          without reducing the care provided.

13          (P) With respect to facilities that provide  
14          mental health services and substance abuse  
15          treatment services, any additional costs involved  
16          in the treatment of dually diagnosed individ-  
17          uals.

18          The portion of such a budget that relates to expendi-  
19          tures for health professional education shall be con-  
20          sistent with the State health security budget for  
21          such expenditures.

22          (3) PROVISION OF REQUIRED INFORMATION; DI-  
23          AGNOSIS-RELATED GROUP.—No budget for an insti-  
24          tution or facility for a year may be approved unless  
25          the institution or facility has submitted on a timely

1 basis to the State health security program such in-  
2 formation as the program or the Board shall specify,  
3 including in the case of hospitals information on dis-  
4 charges classified by diagnosis-related group.

5 (c) ADJUSTMENTS IN APPROVED BUDGETS.—

6 (1) ADJUSTMENTS TO GLOBAL BUDGETS THAT  
7 CONTRACT WITH COMPREHENSIVE HEALTH SERVICE  
8 ORGANIZATIONS.—Each State health security pro-  
9 gram shall develop an administrative mechanism for  
10 reducing operating funds to institutions or facilities  
11 in proportion to payments made to such institutions  
12 or facilities for services contracted for by a com-  
13 prehensive health service organization.

14 (2) AMENDMENTS.—In accordance with stand-  
15 ards established by the Board, an operating and  
16 capital budget approved under this section for a year  
17 may be amended before, during, or after the year if  
18 there is a substantial change in any of the factors  
19 relevant to budget approval.

20 (d) DONATIONS PERMISSIBLE.—The States health  
21 security programs may permit institutions and facilities  
22 to raise funds from private sources to pay for newly con-  
23 structed facilities, major renovations, and equipment. The  
24 expenditure of such funds, whether for operating or cap-  
25 ital expenditures, does not obligate the State health secu-

1 rity program to provide for continued support for such ex-  
2 penditures unless included in an approved global budget.

3 **SEC. 612. PAYMENTS TO HEALTH CARE PRACTITIONERS**

4 **BASED ON PROSPECTIVE FEE SCHEDULE.**

5 (a) FEE FOR SERVICE.—

6 (1) IN GENERAL.—Every independent health  
7 care practitioner is entitled to be paid, for the provi-  
8 sion of covered health services under the State  
9 health security program, a fee for each billable cov-  
10 ered service.

11 (2) GLOBAL FEE PAYMENT METHODOLOGIES.—

12 The Board shall establish models and encourage  
13 State health security programs to implement alter-  
14 native payment methodologies that incorporate glob-  
15 al fees for related services (such as all outpatient  
16 procedures for treatment of a condition) or for a  
17 basic group of services (such as primary care serv-  
18 ices) furnished to an individual over a period of  
19 time, in order to encourage continuity and efficiency  
20 in the provision of services. Such methodologies shall  
21 be designed to ensure a high quality of care.

22 (3) BILLING DEADLINES; ELECTRONIC BILL-

23 ING.—A State health security program may deny  
24 payment for any service of an independent health  
25 care practitioner for which it did not receive a bill

1 and appropriate supporting documentation (which  
2 had been previously specified) within 30 days after  
3 the date the service was provided. Such a program  
4 may require that bills for services for which payment  
5 may be made under this section, or for any class of  
6 such services, be submitted electronically.

7 (b) PAYMENT RATES BASED ON NEGOTIATED PRO-  
8 SPECTIVE FEE SCHEDULES.—With respect to any pay-  
9 ment method for a class of services of practitioners, the  
10 State health security program shall establish, on a pro-  
11 spective basis, a payment schedule. The State health secu-  
12 rity program may establish such a schedule after negotia-  
13 tions with organizations representing the practitioners in-  
14 volved. Such fee schedules shall be designed to provide in-  
15 centives for practitioners to choose primary care medicine,  
16 including general internal medicine and pediatrics, over  
17 medical specialization. Nothing in this section shall be con-  
18 strued as preventing a State from adjusting the payment  
19 schedule amounts on a quarterly or other periodic basis  
20 depending on whether expenditures under the schedule will  
21 exceed the budgeted amount with respect to such expendi-  
22 tures.

23 (c) BILLABLE COVERED SERVICE DEFINED.—In this  
24 section, the term “billable covered service” means a service  
25 covered under section 201 for which a practitioner is enti-

1 tled to compensation by payment of a fee determined  
2 under this section.

3 **SEC. 613. PAYMENTS TO COMPREHENSIVE HEALTH SERV-**  
4 **ICE ORGANIZATIONS.**

5 (a) IN GENERAL.—Payment under a State health se-  
6 curity program to a comprehensive health service organi-  
7 zation to its enrollees shall be determined by the State—

8 (1) based on a global budget described in sec-  
9 tion 611; or

10 (2) based on the basic capitation amount de-  
11 scribed in subsection (b) for each of its enrollees.

12 (b) BASIC CAPITATION AMOUNT.—

13 (1) IN GENERAL.—The basic capitation amount  
14 described in this subsection for an enrollee shall be  
15 determined by the State health security program on  
16 the basis of the average amount of expenditures that  
17 is estimated would be made under the State health  
18 security program for covered health care services for  
19 an enrollee, based on actuarial characteristics (as de-  
20 fined by the State health security program).

21 (2) ADJUSTMENT FOR SPECIAL HEALTH  
22 NEEDS.—The State health security program shall  
23 adjust such average amounts to take into account  
24 the special health needs, including a disproportionate

1 number of medically underserved individuals, of pop-  
2 ulations served by the organization.

3 (3) ADJUSTMENT FOR SERVICES NOT PRO-  
4 VIDED.—The State health security program shall ad-  
5 just such average amounts to take into account the  
6 cost of covered health care services that are not pro-  
7 vided by the comprehensive health service organiza-  
8 tion under section 303(a).

9 **SEC. 614. PAYMENTS FOR COMMUNITY-BASED PRIMARY**  
10 **HEALTH SERVICES.**

11 (a) IN GENERAL.—In the case of community-based  
12 primary health services, subject to subsection (b), pay-  
13 ments under a State health security program shall—

14 (1) be based on a global budget described in  
15 section 611;

16 (2) be based on the basic primary care capita-  
17 tion amount described in subsection (c) for each in-  
18 dividual enrolled with the provider of such services;  
19 or

20 (3) be made on a fee-for-service basis under  
21 section 612.

22 (b) PAYMENT ADJUSTMENT.—Payments under sub-  
23 section (a) may include, consistent with the budgets devel-  
24 oped under this title—

1           (1) an additional amount, as set by the State  
2 health security program, to cover the costs incurred  
3 by a provider which serves persons not covered by  
4 this Act whose health care is essential to overall  
5 community health and the control of communicable  
6 disease, and for whom the cost of such care is other-  
7 wise uncompensated;

8           (2) an additional amount, as set by the State  
9 health security program, to cover the reasonable  
10 costs incurred by a provider that furnishes case  
11 management services (as defined in section  
12 1915(g)(2) of the Social Security Act), transpor-  
13 tation services, and translation services; and

14           (3) an additional amount, as set by the State  
15 health security program, to cover the costs incurred  
16 by a provider in conducting health professional edu-  
17 cation programs in connection with the provision of  
18 such services.

19 (c) BASIC PRIMARY CARE CAPITATION AMOUNT.—

20           (1) IN GENERAL.—The basic primary care capi-  
21 tation amount described in this subsection for an en-  
22 rollee with a provider of community-based primary  
23 health services shall be determined by the State  
24 health security program on the basis of the average  
25 amount of expenditures that is estimated would be

1       made under the State health security program for  
2       such an enrollee, based on actuarial characteristics  
3       (as defined by the State health security program).

4           (2) ADJUSTMENT FOR SPECIAL HEALTH  
5       NEEDS.—The State health security program shall  
6       adjust such average amounts to take into account  
7       the special health needs, including a disproportionate  
8       number of medically underserved individuals, of pop-  
9       ulations served by the provider.

10          (3) ADJUSTMENT FOR SERVICES NOT PRO-  
11       VIDED.—The State health security program shall ad-  
12       just such average amounts to take into account the  
13       cost of community-based primary health services  
14       that are not provided by the provider.

15          (d) COMMUNITY-BASED PRIMARY HEALTH SERVICES  
16       DEFINED.—In this section, the term “community-based  
17       primary health services” has the meaning given such term  
18       in section 202(a).

19       **SEC. 615. PAYMENTS FOR PRESCRIPTION DRUGS.**

20          (a) ESTABLISHMENT OF LIST.—

21           (1) IN GENERAL.—The Board shall establish a  
22       list of approved prescription drugs and biologicals  
23       that the Board determines are necessary for the  
24       maintenance or restoration of health or of employ-

1 ability or self-management and eligible for coverage  
2 under this Act.

3 (2) EXCLUSIONS.—The Board may exclude re-  
4 imbursement under this Act for ineffective, unsafe,  
5 or over-priced products where better alternatives are  
6 determined to be available.

7 (b) PRICES.—For each such listed prescription drug  
8 or biological covered under this Act, for insulin, and for  
9 medical foods, the Board shall from time to time deter-  
10 mine a product price or prices which shall constitute the  
11 maximum to be recognized under this Act as the cost of  
12 a drug to a provider thereof. The Board may conduct ne-  
13 gotiations, on behalf of State health security programs,  
14 with product manufacturers and distributors in deter-  
15 mining the applicable product price or prices.

16 (c) CHARGES BY INDEPENDENT PHARMACIES.—  
17 Each State health security program shall provide for pay-  
18 ment for a prescription drug or biological or insulin fur-  
19 nished by an independent pharmacy based on the drug's  
20 cost to the pharmacy (not in excess of the applicable prod-  
21 uct price established under subsection (b)) plus a dis-  
22 pensing fee. In accordance with standards established by  
23 the Board, each State health security program, after con-  
24 sultation with representatives of the pharmaceutical pro-  
25 fession, shall establish schedules of dispensing fees, de-

1 signed to afford reasonable compensation to independent  
2 pharmacies after taking into account variations in their  
3 cost of operation resulting from regional differences, dif-
