TO THE HOUSE OF REPRESENTATIVES:

The Committee on Health Care to which was referred House Bill No. 202 entitled “An act relating to a single-payer and unified health system” respectfully reports that it has considered the same and recommends that the bill be amended by striking out all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. [Deleted.]

* * * Road Map to a Single-Payer Universal and a Unified Health Care System * * *

Sec. 2. STRATEGIC PLAN; SINGLE-PAYER UNIVERSAL AND UNIFIED HEALTH SYSTEM

(a) As provided in Sec. 4 of this act, upon receipt by the state of necessary waivers from federal law, all Vermont residents shall be eligible for Green Mountain Care, a universal health care program that will provide health benefits through a single payment system. To the maximum extent allowable under federal law and waivers from federal law, Green Mountain Care shall include health coverage provided under the health benefit exchange established under chapter 18, subchapter 1 of Title 33; under Medicaid; under Medicare; by employers that choose to participate; and to state employees and municipal employees, including teachers.
(b) The Green Mountain Care board is created to develop mechanisms to reduce the rate of growth in health care through cost-containment, establishment of budgets, and payment reform.

(c) The secretary of administration or designee shall create Green Mountain Care as a universal health care program by implementing the following initiatives and planning efforts:

1. No later than November 1, 2013, the Vermont health benefit exchange established in subchapter 1 of chapter 18 of Title 33 shall begin enrolling individuals and small employers for coverage beginning January 1, 2014. The intent of the general assembly is to establish the Vermont health benefit exchange in a manner such that it may become the foundation for a Green Mountain Care.

2. No later than November 1, 2016, the Vermont health benefit exchange established in subchapter 1 of chapter 18 of Title 33 shall begin enrolling large employers for coverage beginning January 1, 2017.

3. No later than January 1, 2014, the commissioner of banking, insurance, securities, and health care administration shall require that all individual and small group health insurance products be sold only through the Vermont health benefit exchange and shall require all large group insurance products to be aligned with the administrative requirements and essential benefits required in the Vermont health benefit exchange. The commissioner
shall provide recommendations for statutory changes as part of the integration plan established in Sec. 8 of this act.

(4) The secretary shall supervise the planning efforts, reports of which are due on January 15, 2012, as provided in Sec. 8 and Secs. 10 through 13 of this act, including integration of multiple payers into the Vermont health benefit exchange; a continuation of the planning necessary to ensure an adequate, well-trained primary care workforce; necessary retraining for any employees dislocated from health care professionals or from health insurers due to the simplification in the administration of health care; and unification of health system planning, regulation, and public health.

(5) The secretary shall supervise the planning efforts, reports of which are due January 15, 2013, as provided in Sec. 9 of this act, to establish the financing necessary for Green Mountain Care, for recruitment and retention programs for primary care health professionals, and for covering the uninsured and underinsured through Medicaid and the Vermont health benefit exchange.

(d) The secretary of administration or designee shall obtain waivers, exemptions, agreements, legislation, or a combination thereof to ensure that, to the extent possible under federal law, all federal payments provided within the state for health services are paid directly to Green Mountain Care. Green Mountain Care shall assume responsibility for the benefits and services previously paid for by the federal programs, including Medicaid, Medicare,
and, after implementation, the Vermont health benefit exchange. In obtaining
the waivers, exemptions, agreements, legislation, or combination thereof, the
secretary shall negotiate with the federal government a federal contribution for
health care services in Vermont that reflects medical inflation, the state gross
domestic product, the size and age of the population, the number of residents
living below the poverty level, the number of Medicare-eligible individuals,
and other factors that may be advantageous to Vermont and that does not
decrease in relation to the federal contribution to other states as a result of the
waivers, exemptions, agreements, or savings from implementation of Green
Mountain Care.

(e) No later than January 15, 2012, the secretary of administration or
designee shall submit to the house committees on health care and on judiciary
and the senate committees on health and welfare and on judiciary a proposal to
reform the medical malpractice system for Vermont. The proposal shall be
designed to address the incidence of defensive medicine, reduce health care
costs, and maintain adequate protections for patients, and shall reflect the
secretary’s or designee’s consideration of a no-fault system. The proposal also
shall be designed to take effect on or before the date of implementation of
Green Mountain Care pursuant to 33 V.S.A. chapter 18, subchapter 2.

Sec. 3. 18 V.S.A. chapter 220 is added to read:
CHAPTER 220. GREEN MOUNTAIN CARE BOARD

Subchapter 1. Green Mountain Care Board

§ 9371. PRINCIPLES FOR HEALTH CARE REFORM

The general assembly adopts the following principles as a framework for reforming health care in Vermont:

(1) The state of Vermont must ensure universal access to and coverage for high-quality, medically necessary health services for all Vermonters. Systemic barriers must not prevent people from accessing necessary health care. All Vermonters must receive affordable and appropriate health care at the appropriate time in the appropriate setting.

(2) Overall health care costs must be contained and growth in health care spending in Vermont should not outpace growth in the state’s economy and spending capacity must balance the health care needs of the population with the ability to pay for such care.

(3) The health care system must be transparent in design, efficient in operation, and accountable to the people it serves. The state must ensure public participation in the design, implementation, evaluation, and accountability mechanisms of the health care system.

(4) Primary care must be preserved and enhanced so that Vermonters have care available to them, preferably within their own communities. Other aspects of Vermont’s health care infrastructure, including the educational
and research missions of the state’s academic medical center, must be supported in such a way that all Vermonters have access to necessary health services and that these health services are sustainable.

(5) Every Vermonter should be able to choose his or her health care providers.

(6) Vermonters should be aware of the costs of the health services they receive. Costs should be transparent and easy to understand.

(7) Individuals have a personal responsibility to maintain their own health and to use health resources wisely.

(8) The health care system must recognize the primacy of the patient–provider relationship, respecting the professional judgment of providers and the informed decisions of patients.

(9) Vermont’s health delivery system must seek continuous improvement of health care quality and safety and of the health of the population, and the system therefore must be evaluated regularly for improvements in access, quality, and cost containment.

(10) Vermont’s health care system must include mechanisms for containing all system costs and eliminating unnecessary expenditures, including by reducing administrative costs and by reducing costs that do not contribute to efficient, high-quality health services or improve health outcomes. Efforts to reduce overall health care costs should identify sources
of excess cost growth.

(11) The financing of health care in Vermont must be sufficient, fair, predictable, transparent, sustainable, and shared equitably.

(12) The system must consider the effects of payment reform on individuals and on health care professionals and suppliers. It must enable health care professionals to provide, on a solvent basis, effective and efficient health services that are in the public interest.

(13) Vermont’s health care system must operate as a partnership between consumers, employers, health care professionals, hospitals, and the state and federal government.

(14) State government must ensure that the health care system satisfies the principles expressed in this section.

§ 9372. PURPOSE

It is the intent of the general assembly to create an independent board to promote the general good of the state by developing mechanisms to:

(1) improve the health of the population;

(2) enhance the patient experience of care; and

professionals that are consistent with efficiency, economy, and quality of care
and will permit them to provide, on a solvent basis, effective and efficient
health services that are in the public interest. It is also the intent of the general
assembly to eliminate the shift of costs between the payers of health services
by ensuring that the amount paid to health care professionals is sufficient to
enlist enough providers to ensure that health services are available to all
Vermonters and are distributed equitably.

(b) The board shall ensure that health care professionals, health care
provider bargaining groups created pursuant to section 9409 of this title,
manufacturers of prescribed products, medical supply companies, and other

pursuant to section 9375 of this title and after consultation with the affected
parties, in order to have a consistent reimbursement amount accepted by these
persons.
(c) The board, in collaboration with the director of payment reform in the department of Vermont health access, shall establish payment methodologies for health services, including using innovative payment methodologies consistent with any payment reform pilot projects and with evidence-based practices, and may include fee-for-service payments if the board determines such payments to be appropriate. It is also the intent of the general assembly to ensure sufficient state involvement and action in the design and implementation of the payment reform pilot projects described in this section to comply with federal
and state antitrust provisions by replacing competition between payers and
others with state-supervised cooperation and regulation.

collaboration with the director of payment reform in the department of
Vermont health access, shall oversee the development and implementation

disease prevention and promotion of wellness that includes individuals,

employers, and communities;

(C) health insurers, Medicaid, Medicare, and all other payers should

reimburse health care professionals for coordinating patient care through

consistent payment methodologies, which may include a global budget; a

system of cost containment limits, health outcome measures, and patient

satisfaction targets which may include shared savings, risk-sharing, or other

incentives designed to reduce costs while maintaining or improving health

outcomes and patient satisfaction; or another payment method providing an

incentive to coordinate care and control cost growth; and

(D) the scope of services in any capitated payment should be broad

and comprehensive, including prescription drugs, diagnostic services, services

received in a hospital, mental health and substance abuse services, and services

from a licensed health care practitioner.

have appeal rights pursuant to section 9381 of this title.

(2) In the event that the secretary of human services is denied
permission from the Centers for Medicare and Medicaid Services to include
financial participation by Medicare in the pilot projects, health insurers shall
not be required to cover the costs associated with individuals covered by
Medicare.

(d) To the extent required to avoid federal antitrust violations, the board
shall facilitate and supervise the participation of health care professionals,
health care facilities, and insurers in the planning and implementation of the
payment reform pilot projects, including by creating a shared incentive pool if
appropriate. The board shall ensure that the process and implementation
include sufficient state supervision over these entities to comply with federal
antitrust provisions and shall refer to the attorney general for appropriate action
the activities of any individual or entity that the board determines, after notice
and an opportunity to be heard, violate state or federal antitrust laws without a
countervailing benefit of improving patient care, improving access to health

design and implementation of the pilot projects described in this section.

(b) The purpose of the Vermont health benefit exchange is to facilitate the purchase of affordable, qualified health benefit plans in the individual and group markets in this state in order to reduce the number of uninsured and underinsured; to reduce disruption when individuals lose employer-based insurance; to reduce administrative costs in the insurance market; to promote
health, prevention, and healthy lifestyles by individuals; and to improve quality
of health care.

(c) Nothing in this chapter shall be construed to reduce, diminish, or
otherwise infringe upon the benefits provided to eligible individuals under
Medicare.

Act. The term also does not include stand-alone dental or vision benefits;
long-term care insurance; specific disease or other limited benefit coverage,
Medicare supplemental health benefits, Medicare Advantage plans, and other

(B) Prior to contracting with any health insurer, the Vermont health
benefit exchange shall consider the insurer’s historic rate increase information

(c)(1) If the Vermont health benefit exchange is required by the secretary of the U.S. Department of Health and Human Services to contract with more than one health insurer, the Vermont health benefit exchange may determine an appropriate method to provide a unified, simplified administration system for health insurers offering qualified health benefit plans. The exchange may include claims administration, benefit management, billing, or other components in the unified system and may achieve simplification by contracting with a single entity for administration and management of all qualified health benefit plans, by licensing or requiring the use of particular software, by requiring health insurers to conform to a standard set of systems and rules, or by another method determined by the commissioner.

(2) The Vermont health benefit exchange may offer certain services, such as wellness programs and services designed to simplify administrative processes, to health insurers offering plans outside the exchange, to workers’ compensation insurers, to employers, and to other entities.
