Please provide a cover letter explaining why you are interested in this internship and what you would like to accomplish with it. If you have any thoughts about a particular project you might like to pursue as part of this internship, please share them.

### **RESUME OR APPLICATION**

If you don't have a resume, don't worry about making one now. The application is sufficient. If you have a resume that does not include all of the above information, please supplement it. We do not care about formatting, etc., for your resume, so if you are on a different computer from when you first wrote your resume and can't get the format to match when you are updating it now, DON'T WORRY. Just type it on a separate page. Don't let things like that hold up your application. Please attach your documents to an email addressed to all three of these physicians:
