

ARE YOU A PHYSICIAN SUFFERING FROM MORAL INJURY?

Physicians for a National Health Program is conducting a **NATIONWIDE SURVEY** of physicians regarding the financialization of healthcare and the **growing prevalence of moral injury**, which we define as “the distress physicians experience when they **know what their patients need**, but **cannot provide it** because of constraints outside of their control.”

**IF YOU RELATE TO THE SENTIMENTS BELOW,
YOU SHOULD TAKE OUR SURVEY:**

“Feel **exhausted, helpless, useless. Unsustainable** for me.”

“Have to do **more with less** - less time, less support staff, more patients.”

WHY?

- **Contribute** to important research into Moral Injury
- Analyze **structural racism** in healthcare

HOW?

- Complete the survey in **<10 minutes**
- **Share it** with your colleagues

BONUS!

- Automatic entry into our **monthly drawing** to win gift cards, signed books, PNHP merch, **and more!**
